Summary

Detail-oriented Full Stack Developer with ~2 years of hands-on experience in web application development, user interface design, and agile project management. Skilled in React, Next.js, JavaScript, and TypeScript, with growing expertise in Python and REST API development. Experienced in collaborating with cross-functional teams to deliver scalable, data-driven web solutions. Passionate about continuous learning, cloud technologies, and contributing to fast-paced, innovative environments.

Certifications: CompTIA Tech +

Technical Skills

Frontend: TypeScript, JavaScript, React, Next.js, HTML, CSS, Tailwind CSS, Blazor

Backend: Node.js, ASP.NET, C#, Python, FastAPI

Databases: PostgreSQL, SQL Server, SSMS

Cloud & DevOps: AWS (basic familiarity), Azure, Docker(familiar), GitHub Actions, CI/CD pipelines

Tools & Methods: GitHub, Jira, Figma, Agile/Scrum, Data Analytics

Other: WordPress, WooCommerce, Microsoft 365, Excel

Professional Experience

i.c. stars – Kansas City, MO

Technology Fellow (Contract) | March 2025 – Present

- Provide technical training and mentorship in full-stack web development using C#, ASP.NET, Blazor, JavaScript, React, and Next.js.
- Support interns in designing and deploying production-quality applications following agile methodologies.
- Troubleshoot application, deployment, and CI/CD pipeline issues to ensure reliable program delivery.
- Assist in teaching data modeling, API development, and front-end optimization techniques.

i.c. stars – Kansas City, MO

Developer / Project Manager (Intern) | April 2024 – January 2025

- Led the end-to-end development of a full-stack web application, integrating React (frontend) and Node.js/PostgreSQL (backend).
- Designed and implemented REST APIs, ensuring efficient data flow and optimal user experience.
- Conducted daily standups and two-week sprints using Agile methodology to meet client goals.
- Debugged and optimized SQL queries and server-side logic for improved application performance.

- Presented technical deliverables to clients and stakeholders, ensuring project alignment and quality.
-

Professional Projects

Children's Mercy Hospital – Community Benefit Impact App (via i.c. stars Partnership)

- Built a full-stack data-entry application with React, Node.js, and PostgreSQL.
- Developed intuitive UI/UX and integrated automated reporting features for efficiency.
- Implemented RESTful API endpoints and data validation for seamless data synchronization.

Rachelle & Co – Lead Developer

- Rebuilt company website using WordPress and WooCommerce, improving performance and mobile responsiveness.
- Implemented SEO and accessibility best practices for enhanced visibility and usability.

City of Kansas City – Technical Fellow

- Guided interns in building interactive Blazor dashboards with C# and integrated APIs for real-time data visualization.

1898 & Co / Burns & McDonnell – Technical Fellow

- Led a 16-member team in building an internal OKR tracking platform using React, JavaScript, and PostgreSQL.
 - Managed technical architecture, code reviews, and agile workflows to deliver a scalable, production-ready solution.
 - Hosted workshops on React, GitHub workflow, and CI/CD best practices.
-

Education

i.c. stars Kansas City – Technology & Leadership Program | *Completed August 2024*

Kansas State University – Manhattan, KS | Biology Studies, 2017–2020

Raytown South High School – Raytown, MO | High School Diploma, 2017
